

PlacementHub Campus Champion Reward Program

Purpose

The PlacementHub Campus Champion Reward Program recognizes the efforts of Training & Placement Officers (TPOs), Placement Heads, Placement Coordinators, and other placement professionals who champion and facilitate the successful implementation of PlacementHub within their institutions.

Campus Champion

The first TPO, Placement Officer, Placement Head, Placement Coordinator, or other designated representative who introduces PlacementHub to the institution and agrees to act as the primary implementation champion shall be designated as the Campus Champion for that institution.

The Campus Champion may involve faculty members, placement staff, department coordinators, administrators, IT personnel, management representatives, or other stakeholders in the implementation process. However, the Campus Champion Reward shall be attributable solely to the designated Campus Champion.

Campus Champion Reward

Upon successful implementation of PlacementHub, the Campus Champion shall be eligible to receive gift cards with an aggregate value of ₹10,000.

The Campus Champion may choose one or more available gift card brands offered by PlacementHub at the time of reward issuance, with below options (it can also be a combination of below if recipient prefers) :

- BigBasket
- MakeMyTrip
- Zomato

Successful Implementation Criteria

The Campus Champion Reward shall become payable only upon successful implementation of PlacementHub, which requires completion of all of the following:

1. Institutional Approval

The institution agrees to adopt PlacementHub and proceeds with implementation.

2. MOU Execution

An MOU or other mutually accepted implementation arrangement is executed between the institution and PlacementHub.

3. Student Data Onboarding

Placement-eligible student data is provided and successfully onboarded onto PlacementHub.

As a guideline, PlacementHub expects a substantial proportion of placement-eligible students to be onboarded, typically 80% or more, subject to the institution's circumstances.

4. Placement Team Activation

Relevant placement team members are registered and capable of using the platform.

5. Ongoing Student Data Management Process

The institution establishes a sustainable process for creating, maintaining, and updating student profiles and placement-related information on an ongoing basis.

6. Platform Go-Live

PlacementHub is operationally deployed and available for placement-related activities within the institution.

7. Implementation Verification

PlacementHub verifies that the implementation is complete, operational, and intended for ongoing institutional use.

Implementation Timeline

The Campus Champion Reward is outcome-based and not time-based.

Implementation timelines may vary significantly between institutions depending on management approvals, academic schedules, stakeholder participation, student data availability, internal processes, examinations, vacations, and other institutional factors.

While some institutions may complete implementation within a few weeks, others may require several months. A typical implementation may take between one and six months, depending on institutional readiness and participation.

The Campus Champion acknowledges that the reward becomes payable only upon successful completion of the implementation criteria, regardless of the time taken to achieve such completion.

Champion Participation

The Campus Champion is expected to remain reasonably engaged in supporting and facilitating the implementation process until successful implementation is achieved.

Reward Fulfilment

The Campus Champion Reward shall be issued within 30 days of PlacementHub verifying successful implementation.

Goodwill Gestures

PlacementHub may, at its discretion, provide certificates, mementos, small gifts, or other tokens of appreciation during the implementation journey. Such goodwill gestures are independent of and do not replace the Campus Champion Reward.

General

The Campus Champion Reward Program is intended to recognize and appreciate the effort involved in championing, coordinating, and facilitating the successful implementation and adoption of PlacementHub within an institution.

No partial reward shall be payable for incomplete implementations.

PlacementHub reserves the right to clarify implementation requirements, provided that the core successful implementation criteria outlined above remain unchanged.

Please note that successful implementation timelines vary by institution and may take several months. In many cases, implementation may take several months depending on approvals, data availability, and institutional participation.
