

PlacementHub – Pre-Seed Investment Opportunity

Transforming Campus Placements Through a Unified Digital Platform

The Problem

India produces over 15 lakh engineering graduates annually, along with millions of graduates from other disciplines. Yet campus placements remain highly fragmented:

- Students apply blindly with limited visibility into opportunities and outcomes
- Colleges manage placement processes using spreadsheets, emails, and manual workflows
- Recruiters struggle to identify suitable candidates and coordinate hiring efficiently
- Data remains scattered across multiple disconnected systems

The result is significant inefficiency for students, institutions, and employers alike.

The Solution

PlacementHub is a cloud-based platform that connects students, educational institutions, and recruiters through a single digital ecosystem.

Key capabilities include:

- Student profile and application management
- Internship and job opportunity management
- Placement workflow automation
- Recruiter hiring and candidate management
- Placement analytics and reporting
- Institutional compliance and rule enforcement

Current Status

- ✓ Product developed and operational
- ✓ End-to-end workflows completed
- ✓ Cloud deployment completed
- ✓ Demo environment available
- ✓ Validation and commercialization underway

Funding Requirement

Seeking an initial pre-seed investment of ₹10-15 lakhs as part of a broader pre-seed round of up to ₹50 lakhs.

Use of Funds

- Product enhancement and production readiness
- Institutional customer acquisition
- Recruiter onboarding and engagement
- Revenue model validation
- Market traction and growth initiatives

Why This Opportunity?

- Large and recurring education market
- Clear operational problem affecting multiple stakeholders
- Product already built and available for demonstration
- Capital-efficient validation stage
- Multiple pathways for scale across colleges, recruiters, and students

Founder

Sandeep Jain

Technology professional with experience building software products and working with educational institutions.

Next Step

Interested investors are invited to review a live demonstration and discuss the business model, roadmap, and growth strategy.
